LEADING QUALITY FOR 100 YEARS

Ministry of Defence Quality Award

In the category of

Inspiring Leadership

Presented to

Q Apprenticeship Trailblazer

for the following achievement

Inspiring Leadership addressed the urgent need for more Quality Practitioners across sectors. The first ever Quality Practitioner Apprenticeship standard across sectors, has long-term, far reaching impact and makes a significant contribution to education and talent development in quality management. The Government approved common standard attracts funding for training, which can support the MoD and its supply chain with hundreds of apprenticeships in this decade.
