

ONP Green Belt 2018

Programme

Delivery of 5 days technical training in 1 week (October 2018), followed by regular coaching sessions approximately once per month over 8 months

The Delegates

The Delegate group of 15 were made up of staff from a variety of organisations, mainly in the Automotive sector, and from roles varying from shop floor operatives to mid management level..

Organisations involved:

Magna Exteriors

Plastic Omnium

WHS Plastics

JJS Manufacturing

Jaguar Land Rover

Bee Lighting

D & A Steering

Faurecia

Successes

Across the 15 delegates, 11 produced workplace improvement projects, totalling over £1.8 million of Cost of Poor Quality or Cost Avoidance potential.

All 11 projects delivered significant real-time business benefits, in a variety of subject areas including;

Reduction in Part Scrappage, Waste Reduction, Warranty Claim Reduction, Invoice Payment Improvements, Improvement in Testing Procedures and associated product failures.

“ I am delighted to hear that now I have the Six Sigma Green Belt certification. Unique experience and amazing people I have met ”

Luciana D'Aquino

Production Quality Inspector, Magna Exteriors
