making good people great

Gestamp

Client

Gestamp Tallent is an international group dedicated to the design, development and manufacture of metal automotive components. The Group specializes in developing innovatively designed products to achieve increasingly safer and lighter vehicles, thereby reducing energy consumption and environmental impact.

Requirements

- Develop Problem Solving skills through open and in-house training programmes
- Understand how to incorporate Six Sigma techniques into daily routines
- Use Six Sigma techniques to improve ability to influence quality improvement
- For the Maintenance Teams to gain a working knowledge of how to make the best use of Six Sigma tools & techniques to improve Quality, Cost & Delivery

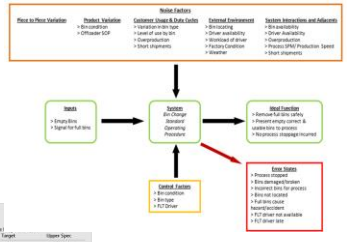
Capella Input

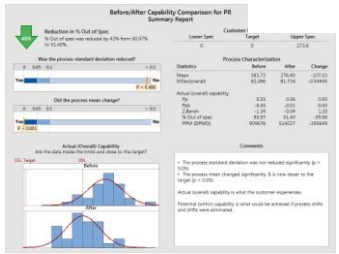
Delivered training in the Lean Six Sigma at Yellow, Green and Black Belt level across all key functions

Provided an engaging and interactive training experience using simulation techniques and specialist statistical software

Provided project support to ensure the successful transfer of new skills into the workplace and the delivery of business benefits

Provided on-site and remote support for the duration of the programme





Results

A great set of projects that covered a range of areas from Logistics to Health & Safety with all delegates receiving their certificates

Successful completion of formal training input by Maintenance delegates and demonstration of the ability to apply tools in a maintenance environment

Improvements in identification of situations and issues that can be resolved or improved by use of the Six Sigma methodology and tools

> I have learnt not to take everything at face value but to look and challenge what is presented and insist on data to support and prove.
>
> I have really enjoyed using the Six Sigma tools in my work and can see a difference in the way I work. I found
>
> Mick an excellent trainer who made the learning process clear and understandable as well as generating a relaxed and friendly environment whilst ultimately making himself very approachable
